

## Product discontinuation notice

To whom it may concern,

we, KEM Küppers Elektromechanik GmbH, have decided in the course of continuous improvements of the product quality, delivery reliability and the further development of our product portfolio to take the following article from the assortment effective December 31st, 2010.

We inform you about the product discontinuation of the local display unit with analog and frequency output version VTM- \*.

**Manufacturer:** KEM Küppers Elektromechanik GmbH  
**Affected product:** Local display unit VTM-  
**KEM order number:** VTM-\*

**Successor product:** Local display unit VTC-\*

### Product discontinuation reason:

As part of a program adjustment, the production of the local display unit with analog and frequency output version VTM- \* is set. Product availability is subject to the capacity and resource constraints of suppliers in order to provide support and service.

The service of affected product was based on the remaining quantities of each sensor type, which were completely set mid 2015.

For technical or commercial enquiries or alternative products from our local indicator portfolio, please do not hesitate to contact your regional sales manager.
