Protective Cover

# Protective Cover – IPS

## Description

The protective covers of the series IPS are used to protect panel mount housings against water and pollution.

The protective covers are made out of clear soft PVC that all displays remain well visible and that the pushbuttons still can be operated without removing the cover.

## Operation

Push the protective cover from the front side over the panel mount unit. Make sure that the corners are well covered.

Put the unit into the cutout of the panel. Then ears of the cover must properly enter the panel cutout.

Mount the unit as described in the unit's manual.

## Technical Data

Material	PVC soft
